

Hi to All.

As you now know Breakthrough is transitioning to the Caron Treatment Center. I have been traveling from Baltimore to Breakthrough once a month for the program in Parkton, MD since its inception at Harmony Farm. The puppets and I will not be moving to the weekly program for Breakthrough at Caron in Pennsylvania. I just wanted to take this opportunity to say thank you to Ann for believing in therapy through puppetry and to all the staff for generously supporting my gift of puppet therapy for the past ten and a half years. I am sure, when it's possible, that our paths will cross again and the puppet friends and I will connect with Ann, Marilyn, Ralph, Jackie, Genelle and all of the staff.

During this time of transition, I want to take the time to be sure to thank all of the participants who were open to and who welcomed the puppets and I. It truly has been a privilege to be a part of the healing that is offered at Breakthrough.

I will continue my private practice in my offices at Columbia and Mt. Washington, MD. At present, I teach at as an adjunct at Loyola College in MD. And, I am offering training in Puppet Therapy through the Puppet Therapy Institute. My website is www.puppettherapy.com. Please feel free to email at jvizzini@puppettherapy.com if you are interested in being on the e-mail list.

Blessings of Light and Love to All,

Joanne (Dr. Puppet Lady)
And Cool Eugene and all of the Friends
